Technical Skills:

Technologies: MEAN Stack, RDBMS, PHP

Languages / Framework: NodeJS, ExpressJS, AngularJS, CodeIgniter, Cake PHP, OpenCart, WordPress, Joomla, JavaScript, jQuery, Socket.

API : Fused Location Provider, Google Map, Barcode scanner, Print, Facebook, Google+, YouTube.

Push Notification : Fabric, Picasso & Glide image loading library, Expo Player.

Application/Web Servers : Apache Tomcat 6, 7.

Databases : SQL Server, MySQL, MongoDB, Firebase, Oracle 10G.

Operating Systems : Windows family, Ubuntu.

Web Service : REST Web Services.

Web Technology : JSON, XML, HTML, HTML5, JavaScript, Angular-JS

IDE : Visual Studio NetBeans, Atomic, Sublime, Dream Viewer, Note Pad++

Other Tools : PL-SQL developer, SoapUI, Postman

Versioning Tool : GIT, SVN

Education:

- Completed AMIETE (B.Tech-IT)
- Six Sigma Green Belt Certified
- ITIL Certification (Pursuing)
- Java/J2EE Training Completed

Key Projects:

1. Explurger (Traveling Based Social Media App)

Team Size 6

Environment : MEAN Stack , SQL Database, FCM Push Notification, Socket, Social media Login, Rest WebServices.

Responsibilities : Interaction with the client to gather the business requirements. Enhancement Functionality.

Functionalities : Explurger is Travels based social App . User This App User capture own traveling Miles andMoment , Explurger allows users to capture Traveling moment and share that moment with their followers and others friend. Users can follow celebrities, sports teams, bands, and friends; comment and Kudos others' posts; and share their own customized posts.

2. Koala Publishing Pty. Ltd, Australia (ERP)

Team Size 6

Environment: Cake PHP 3,MySQL, Rest Web Services.

Responsibilities :Interaction with the client to gather the business requirements. Enhancement Functionality.

Functionalities :Centralized ERP of E-commerce Portal as well as Employee, Distributors, Retailers and Retailer Customer Management.

3. Koala Bamboo Pty. Ltd

Team Size : 4

Environment : OpenCart, MYSQL, Pay way, Authorize .net/Paypal Payment Gateway.

Responsibilities :Interaction with the client to gather the business requirements. Designing And Development.

Functionalities :Multi Store, B2C Support, Dynamic Cron Job based product / categories updates, InventoryManagement as per ERP

4. Koala Publishing Pty. Ltd

Team Size : 4

Environment : OpenCart, MySql

Responsibilities ; Interaction with the client to gather the business requirements. Designing of the framework, Development of web services endpoints. Testing (white box and black box) of developed endpoints. Documentation of request and response payloads.

Functionalities: MarketPlace for Retailer, Distributors, Distributor Customers only

5. Koala Chat Bot

Team Size : 4

Environment : Node JS Based REST Web Services, Cake PHP, Mysql, Socket, Push Notification(FCM)

Responsibilities : Gather business requirements, Designing, Development Functionalities.

Functionalities : Ticket Generate, Chatting, File Sharing, Group Task Tagging and others

6. OASIS

Environment : Core PHP Admin Panel, Restful Web Services, MySQL, BarCode Scanner PushNotification(FCM)

Responsibilities : Planning, Designing, Development Functionalities, Live App. Support

Functionalities : Form Printing, Bar Code Assign to each form, form assignment to executive, Executive Live, Tracking, Door Delivery Tracking, etc

7. Title VPay, USA

Team Size : 3

Environment : Technologies: Restful web-Services, CI, JSON, Angular 1.2 | API : Push Notification(FCM) | Testing tool ,SOAP UI 5.2.1 | Database: MySql | Web Server: Apache Tomcat 6.3.2

Responsibilities :Interaction with the client to gather the business requirements. Designing of the framework,Development of web services endpoints. Testing (white box and black box) of developed endpoints,Documentation of request and response payloads

Functionalities : Electricity Bill, Water Bill, Post Paid Bill Payment, Recurring Payment, Transaction Report based on Graph and many more options

Many More Projects... will explain in details when will got a chance for F2F Interaction.

Academic Project

Title : Airline Reservation System.

Environment : C with MS-Access.

Responsibilities : UI Designing & Functionality Development

Title : **Library Management System.**

Environment : C++ with MS-Access.

Responsibilities : UI Designing & Functionality Development

Strengths :

- Analytical and problem-solving abilities.
- Client & Team Handling.
- Quick Learner and Keep Updates on Emerging technologies.
- Confidence & Optimistic & Good Leader.
- Convincing Skill and Team Maximum output and Situation Handling.
