

## **.NET Developer with 10 Years of Experience**

### Professional Profile

8 + Years of experience in Software Applications design and development using Microsoft technologies.7  
+ Years Hands on experience in ASP.Net (3.5/4.0/4.5), ASP.Net (MVC4) with Razor, C#.Net, AJAX,  
JavaScript, Microsoft SQL Server (2008,2012,2014), JQuery, WCF (Rest Full), Web Services, SSRS.  
Involved in all phases of Software Development Life Cycle (SDLC).

### Technical Skills

- Microsoft ASP.Net (3.5/4.0/4.5/4.6).
- Microsoft ASP.Net (MVC4) with Razor.
- C#.Net.
- AJAX.
- Microsoft SQL Server 2008, 2012.
- WCF (Rest Full).
- JavaScript and JQuery.
- HTML.
- SharePoint 2016.

### Professional Qualification

Master of Computer Applications  
Bachelor of Science (B.Sc.)

### Project Profile

#### **Project No: 1**

Project : S.M.A.R.T.  
Designation : Senior Software Developer/ATL  
Roles : Programming & Development.  
Client : Halliburton (US Based Client)

**Project Description:** Halliburton is US based Oil and Gas Company and this application is web-based application and mostly used by Chemical Chemist. This application has four main module Product, Component, Hazard and Mixture. When company launch new product, then Chemist used this

## .NET Developer with 10 Years of Experience

application, to perform product and component based different operation such as product, component and Tox data tagging, such type many operations perform by “Product and Component Module”.

Chemist uses “Hazard Module” for hazard Test and Hazard information for product and its component. And in “Mixture module” user make different type of mixture by using different type of component and its percentage.

**Contribution:** As a Team Member responsibilities are:

- Understanding the specifications provided by Client.
- Development of web application using ASP .Net, jQuery, Ajax, MVC-4, SQL Server, Infragistics web data grid.
- Coding using C#, Ajax, jQuery.

Software : ASP .Net, SQL Server  
Languages : C#, HTML, JavaScript, jQuery.

### Project No: 2

Project : Vedanta Corporate Portal  
Designation : Senior Software Developer  
Roles : Programming & Development.  
Client : Vedanta

**Project Description:** Internal client/employee uses Vedanta corporate portal. In this portal user can write/read blog, corporate news, company share prices and business entity prices. Admin can add picture in carousel, daily news in news and media section. Share prices will change without refresh the page at some time interval.

**Contribution:** As a Team Member responsibilities are:

- Understanding the specifications provided by Client.
- Development of web application using ASP .Net, jQuery, Ajax, MVC-4.
- Coding using C#, Ajax, jQuery.

Software : ASP .Net, MVC-4  
Languages : C#, HTML, JavaScript, jQuery.

### Project No: 3

Project : KPI-PSCM  
Designation : Senior Software Developer  
Roles : Programming & Database Design.

**Project Description:** This application is used by HR section in cairn. An employee can fill their quarter and yearly key performance integration and role. Manager /Admin can also fill KPI of their Reporters.

## .NET Developer with 10 Years of Experience

Manager can reject and approve the KPI of their Reporters. There is an automatic scheduler run, which send notification to employee to fill their KPI.

**Contribution:** As a Team Member responsibilities are:

- Understanding the specifications provided by Client.
- Development of web application using Asp.net, Sql Server, JQuery.
- Coding using ASP.Net, C#, Ajax and JavaScript using MSVS-2010 and Sql-Server 2008.

**Software** : **MSVS.Net 2010, Sql-Server 2008**

**Languages** : **ASP.NET 4.5, C#, HTML, JavaScript, JQuery, SSRS.**

### Project No: 4

**Project** : Renewal Manager (Acronis)

**Designation** : Senior Software Developer

**Roles** : Programming & Database Design.

**Project Description:** Renewal Manager is a web Application that is used to renew the product of the client (Microsoft Cloud, Acronis, Microsoft Dynamic and Cleverbridge) before and after the expiry of product. RM provides three types of Services-Offline, Online and Box Sales service of product. This informs the user within 90 days before expiry and 30 days after expiry of product and other than this, many different services are provided.

**Contribution:** As a Team Member responsibilities are:

- Understanding the specifications provided by Client.
- Development of web application using Asp.net (MVC), WCF environment.
- Coding using ASP.Net, C#, Ajax and JavaScript using MSVS-2012 and Sql-Server 2012.

**Software** : **MSVS.Net 2012, Sql-Server 2012**

**Languages** : **ASP.NET 4.5, C#, HTML, JavaScript, query.**

### Project No: 5

**Project** : Air Arabia

**Designation** : Software Developer.

**Roles** : Programming & Database Design.

**Project Description:** The web application has developed for Air Arabia Cargo. This Site have Super admin, GSA and CTO Wise Login. Super Admin has right to make the Master Module for Airline (IATA/Non IATA). Super Admin can make GSA and Agent of GSA for Particular City and Issue stock to GSA. GSA has also to Blacklist, issue and Return stock form Agent/CTO.

**Contribution:** As a Team Member responsibilities are:

- Understanding the specifications provided by Client.

## .NET Developer with 10 Years of Experience

- Development of web application using Asp.net environment.
- Coding using ASP.Net, C#, Ajax and JavaScript using MSVS-2010 and Sql-Server 2008.

**Software** : **MSVS.Net 2010, Sql-Server 2008**  
**Languages** : **ASP.NET 4.0, C#, HTML, JavaScript, query.**

### Project No: 6

**Project** : Air Asia  
**Organization** : CARGO FLASH INFOTECH PVT. LTD., GURGAON  
**Designation** : Software Developer.  
**Roles** : Programming & Database Design.

**Project Description:** This web application has developed for Air Asia Cargo. This application has Super admin, GSA and CTO Wise Login. Super Admin has right to make the Master Module for Airline (IATA/Non IATA). Super Admin can make GSA and Agent of GSA for Particular City and Issue stock to GSA. GSA has also to Blacklist, issue and Return stock form Agent/CTO.

**Contribution:** As a Team Member responsibilities are:

- Understanding the specifications provided by Client.
- Development of web application using ASP.Net environment.
- Coding using ASP.Net, C#, Ajax and JavaScript using MSVS-2010 and Sql-Server 2008.

**Software** : **MSVS.Net 2010, Sql-Server 2008, TFS**  
**Languages** : **ASP.NET 4.0, C#, HTML, JavaScript, query.**
